Materiais / *Materials:* Ferro, aço e latão / *Iron, steel and brass*.

Produzido / *Produced:* 1924.

Dimensões / *Dimensions:* 325 x 325 x 320 mm.

Peso: / *Weight:* ??? kg.

Impedância / *Impedance:* 1300 Ω .

Volume / *Volume:* Ajustável / *Adjustable*.

História / History:

1. *Timmons Radio Products Corp.*, was a very small company that operated between 1924 and 1927 in Philadelphia, USA. Company produced battery eliminators for battery-powered radios, at least one AC-powered audio amplifier, and some horn and cone speakers. Horn loudspeakers have a very curious construction as they have a built-in horn made up of two horns that work in opposite directions within each other.
