## História / History:

- 1- In 1893, the Danish Lauritz Peter Knudsen (1863 - 1917) established himself as a watchmaker with a watchmaking workshop. Later he began manufacturing and installing small household appliances.
- 2- In 1917, Lauritz Knudsen passed away and the equipment installation business was sold while the factory continued under the Lauritz Knudsen name.
- 3- In 1919 a new factory was built in Haraldsgade, and the entire company was moved to the new premises in 1921. From 1921 Knudsen also became a manufacturer of radio sets
- 4- Around 1935 the company manufactured household appliances and electrical installation material, leaving the radio manufacturing business.
- 5- The company currently manufactures automation systems within the Schneider Electric group
